Did not receive reports from any club for May 25<sup>th</sup>, assume that it rained. In cases where more than one player in League has ~~for~~ same name, have score put in players first initial.

Records to papers are double spaced.

Will have these average ~~manuscripted~~ in future as this work of typing ~~these~~ and computing averages takes at least 8 hours as figures take longer to type than words and some box scores are cross word puzzles.

Will not issue another average until July 1<sup>st</sup>. In meantime will carry pitchers averages, name run hitters etc.

If it is possible send me some money as I recently moved, and can certainly use it. Would see to give you the data on players. If he does not do it call him at Woodside or Douglas in Philadelphia as I don't have the information secured on players numbers of uniforms. The line up is as follows.
